PROFESSIONAL PROFILE

My name is **Steven Ladislaus Abalwambo**. I am a graduate of the Eastern Africa Statistical Training Centre (EASTC), with experience in statistical data management, health information systems, research, and records management , administrative support, and web-based system development. Proficient in Python, PHP, JavaScript, HTML and CSS, with practical experience translating organizational requirements into digital systems, searchable records, dashboards, and data-driven solutions.

PROFESSIONAL SUMMARY

System Developer and Data Analyst with project experience in taxation, education, e-commerce, agriculture, tourism, and cybersecurity services. Skilled in web development, database management, web scraping, API integration, data processing, responsive interface design, and deployment. Experienced in developing systems that support information management, analysis, reporting, and daily operations.

CORE SKILLS

Full-stack web and system development	Database design and management	Web scraping and online business discovery
API integration and data processing	Data cleaning, analysis and visualization	Dashboard development and reporting
Responsive user-interface design	System troubleshooting and maintenance	Website deployment and hosting configuration
